2. DETAILS OF THE PROPOSED RENEWAL OF SHAREHOLDERS' MANDATE (CONT'D)

2.5 Benefits and Rationale for the Proposed Renewal of Shareholders' Mandate

The RRPT set out in Section 2.4 of this Circular are recurring transactions of a revenue or trading nature to be entered into in the ordinary course of business, will generate revenue and contribute to the profitability of Southern Acids.

The main reasons Southern Acids enters into RRPT are the reliability of supplies and the proximity between the operations, for operational efficiency and cost effectiveness. As such, the continuation in carrying out RRPT necessary for the day-to-day operations of Southern Acids on commercial terms will enhance Southern Acids ability to pursue its business opportunities, which are time-sensitive in nature, in a more expeditious manner.

These recurring transactions are likely to occur with some degree of frequency and arise at any time and from time to time and hence may be impractical to seek shareholders' approval on a case-to-case basis before entering into such RRPT.

The shareholders' mandate in respect of the RRPT on an annual basis would eliminate the need to convene separate general meeting from time to time to seek shareholders' approval as and when potential recurrent transactions with a related party arises, thereby reducing substantially administrative time and expenses in convening such meetings without compromising the corporate objectives and adversely affecting the business opportunities available to Southern Acids.

2.6 Guidelines and Review Procedures for RRPT

The Board is mindful of the interests of the minority shareholders and has put in place internal control systems to ensure that any RRPT entered into by Southern Acids with Related Party, which are in the ordinary course of business, are conducted at arm's length basis and on normal commercial terms consistent with Southern Acids business policies and practices and are not detrimental to the interests of the minority shareholders in Southern Acids.

The management and the Audit & Governance Committee ("AGC") of SAB are committed to ensure that all RRPT will only be entered into after taking into consideration of all the relevant valuation, quantitative and qualitative factors.

The review procedures established include the following:

- (a) all directors have been briefed of the requirements governing RRPT under the Listing Requirements. In particular, they have been advised that RRPT, if aggregated values of the transactions fall within the thresholds set in the Listing Requirements, such RRPT will require the prior approval of the shareholders of SAB and that such approval, if granted, are subject to annual renewal. The directors have also been informed of the review and disclosure procedures put in place by the management;
- (b) all RRPT will be monitored and reviewed by the management and records of such transactions will be made available by the management to the AGC, internal and/or external auditors for their periodic reviews;
- (c) market prices will be used as benchmarks to determine the transaction prices for sales to and purchases from Related Party. The transactions will be entered into at prevailing market prices on terms not more favourable to the Related Party than those generally available to the public. Market prices are benchmarked against published rates and/or quotations received from independent or third party suppliers of similar or substantially similar products and services.

The transaction prices, terms and conditions are determined by market forces, under similar commercial terms for transactions with third parties, which depend on the demand and supply of the products and services in the market. Terms of RRPT relating to the price or sales/distribution margins shall not change substantially during the period when the Proposed Renewal of Shareholders' Mandate is in force. Where such change is deemed necessary, the management shall ensure that the new terms are consistent with a transaction conducted at arm's length and on normal commercial terms and will not be detrimental to the interests of minority shareholders in Southern Acids.

At least two (2) others contemporaneous transactions with unrelated third parties for similar products or services and/or quantities will be used as comparison, whenever possible, to determine whether the price and terms offered to/by the Related Party are fair and reasonable and comparable to those offered to/by other unrelated parties for the same or substantially similar type of products or services and/or quantities.

Where quotation or comparative pricing of a particular product or service cannot be obtained from unrelated third parties, the transaction price will be determined by the management based on product or service of substantially similar in nature and/or quality offered to/by other unrelated party to ensure that the RRPT is not detrimental to Southern Acids;

2.6 Guidelines and Review Procedures for RRPT (Cont'd)

- (d) the Company maintains a record of RRPT carried out pursuant to the Proposed Renewal of Shareholders' Mandate. The Company's internal audit plan will incorporate a review of the record in respect of the transactions entered into during the financial year. The AGC also annually reviews and updates existing review guidelines and procedures if necessary to ensure they remain relevant and effective; and
- (e) further, where any director or person connected with him have any interest (direct or indirect) in any RRPT, such director (or his alternate) shall abstain from voting on the matter at the Board meeting of the Company. Where any member of the AGC is interested in any RRPT, that member shall abstain from voting on any matter relating to any decision to be taken by the AGC with respect to such transaction.

2.7 Threshold of Authority

There is no specific threshold for approval of RRPT within Southern Acids. However, all RRPT are subject to the approval of the Board. Where any director has an interest (direct or indirect) in any RRPT, such director shall abstain from deliberation and voting on the matter. If it is determined that the guidelines and/or procedures stated in Section 2.6 of this Circular are inadequate to ensure that:

- (a) the RRPT will be conducted at arms' length and on normal commercial terms which are not more favourable to the Related Party than those generally available to the public; and
- (b) such transactions are not to the detriment of the minority shareholders of the Company or prejudicial to the interests of the shareholders.

the Company will seek for a fresh mandate from its shareholders.

2.8 Validity Period for the Proposed Renewal of Shareholders' Mandate

The authority conferred pursuant to the Proposed Renewal of Shareholders' Mandate, if approved at the forthcoming 34th AGM on 28 August 2015, shall only continue to be in force until: -

- (a) the conclusion of the next AGM following the forthcoming 34th AGM in which the authorisation is obtained, at which time it will lapse, unless by an ordinary resolution passed at the meeting, the authority is renewed;
- (b) the expiration of the period within which the next AGM following the forthcoming 34th AGM is required to be held pursuant to Section 143(1) of the Act, (but shall not extend to such extension as may be allowed pursuant to Section 143(2) of the Act); or
- (c) revoked or varied by resolution passed by the shareholders in general meeting, whichever is the earlier.

2.9 Amount due and owing by Related Party

As at the end of the financial year ended 31 March 2015, none of the amount due and owing by Related Party has exceeded the credit terms.

2.10 Disclosure in the annual report

In accordance with Paragraph 3.1.5 of Practice Note 12 of the Listing Requirements, disclosure will be made in the annual report of the Company with regard to the aggregate value of RRPT conducted pursuant to the shareholders' mandate during the financial year and in the annual report of the subsequent year during which the shareholders' mandate is still in force. In providing the disclosure, the Company will provide a breakdown of the aggregate value of the RRPT made during the financial year, amongst others, based on the following information:

- (a) the type of RRPT made; and
- (b) the names of the Related Party involved in each type of RRPT made and their relationship with the Company.

2.11 Statement by Audit & Governance Committee

The AGC of SAB, which has been given the responsibility of determining whether the procedures for reviewing all RRPT are appropriate and relevant, comprised the following members:

- Chung Kin Mun (*Chairman, Senior Independent Non-Executive Director*);
- Leong So Seh (*Independent Non-Executive Director*);
- Teo Leng (*Independent Non-Executive Director*); and
- Raymond Wong Kwong Yee (*Non-Independent Non-Executive Director*).

The AGC will review the procedures in Section 2.6 on a yearly basis or such frequency as the AGC considers appropriate having regard to the value and the frequency of the RRPT. Southern Acids has put in place adequate procedures and processes to monitor, track and identify such transactions in a timely and orderly manner to ensure that the RRPT are carried out on arms' length basis and made in the ordinary course of business on terms which are not more favourable to the Related Party than those generally available to the public and will not be detrimental to the interest of the minority shareholders of the Company.
